

This form is part 4 of the [IST sludge request](#).

Registration of incoming sludge samples Indaver Separation Technologies Laboratory

REQUEST DATA	
Customer/Requester (*)	
Customer's contact person	
Telephone number	
E-mail	
Date of request	
Indaver contact person	

PROJECT DESCRIPTION	
Project	
Location	
Country	

SLUDGE INFORMATION (SAMPLE)	
Description of sludge	
Source/Origin of sludge	
Sampling date	
Sampled by	
Sampling point (**)	
Sludge analysis available(***)	
EURAL code (if known)	

INFORMATION FOR LABORATORY			
Brief description of test objective	<input type="checkbox"/> Determine optimal dewatering technique <input type="checkbox"/> Process optimization <input type="checkbox"/> Other:		
Permitted additives/Auxiliary agents	<input type="checkbox"/> Flocculant <input type="checkbox"/> Polymer (emulsion) <input type="checkbox"/> Polymer (powder) <input type="checkbox"/> Coagulant <input type="checkbox"/> FeCl ₃ <input type="checkbox"/> Other:		
(to be completed by Indaver) Parameters to be analysed	<table border="0"> <tr> <td style="vertical-align: top;"> In-situ sludge: <input type="checkbox"/> DS% in-situ <input type="checkbox"/> S.G. in-situ <input type="checkbox"/> Dissolved substances in-situ <input type="checkbox"/> pH Sludge cake: <input type="checkbox"/> Quality of sludge cake <input type="checkbox"/> DS% of sludge cake <input type="checkbox"/> S.G. of sludge cake </td> <td style="vertical-align: top;"> Other: <input type="checkbox"/> Quality of centrate <input type="checkbox"/> Residue on ignition <input type="checkbox"/> Sludge volume index (SVI) <input type="checkbox"/> Odour/Smell <input type="checkbox"/> Sand fraction <input type="checkbox"/> Oil ratio <input type="checkbox"/> </td> </tr> </table>	In-situ sludge: <input type="checkbox"/> DS% in-situ <input type="checkbox"/> S.G. in-situ <input type="checkbox"/> Dissolved substances in-situ <input type="checkbox"/> pH Sludge cake: <input type="checkbox"/> Quality of sludge cake <input type="checkbox"/> DS% of sludge cake <input type="checkbox"/> S.G. of sludge cake	Other: <input type="checkbox"/> Quality of centrate <input type="checkbox"/> Residue on ignition <input type="checkbox"/> Sludge volume index (SVI) <input type="checkbox"/> Odour/Smell <input type="checkbox"/> Sand fraction <input type="checkbox"/> Oil ratio <input type="checkbox"/>
In-situ sludge: <input type="checkbox"/> DS% in-situ <input type="checkbox"/> S.G. in-situ <input type="checkbox"/> Dissolved substances in-situ <input type="checkbox"/> pH Sludge cake: <input type="checkbox"/> Quality of sludge cake <input type="checkbox"/> DS% of sludge cake <input type="checkbox"/> S.G. of sludge cake	Other: <input type="checkbox"/> Quality of centrate <input type="checkbox"/> Residue on ignition <input type="checkbox"/> Sludge volume index (SVI) <input type="checkbox"/> Odour/Smell <input type="checkbox"/> Sand fraction <input type="checkbox"/> Oil ratio <input type="checkbox"/>		
Sample storage	<input type="checkbox"/> Sludge cake <input type="checkbox"/> Effluent		

(*) If you are not yet a customer of Indaver Separation Technologies: email a copy of recent company data and/or Purchase Order.

(**) The customer is responsible for the delivery of a representative sludge sample.

(***) The delivery of a recent analysis concerning the sludge composition and health risks falls within the customer's duty of disclosure (if available: add as appendix).

Costs of Indaver lab analysis	EUR 475.00
-------------------------------	-------------------

Optional external analyses (at a laboratory other than Indaver) will be charged for (exclusively on behalf of the customer in advance) on the basis of subsequent calculation.

I accept [the terms and conditions](#)
